

### Company description

Premier Energy Services, a leading provider of natural gas distribution construction, maintenance and engineering services in Ohio, Kentucky, and Indiana.

### Services

Premier offers four main types of services to natural gas distribution utilities:

- Natural Gas Pipeline Construction, Maintenance and Pipeline Safety Compliance
- Natural Gas Distribution Operations, Consulting and Training
- Engineering and Design
- Master Meter Construction and Maintenance

### Company Vision/Mission

Premier Energy Services will work with our customers to provide safe, high-quality and cost-effective solutions to their construction, maintenance and operational needs.

### Headquarters:

370 Industrial Drive, Suite 100  
Lawrenceburg, IN 47025

### Dayton, OH Location:

5380 Intrastate Drive  
Fairborn, OH 45324

**Date Company Founded:** 2002

### Company history/milestones

Premier Energy Services began operations in 2002 as a contractor for the natural gas utility industry, offering safe, reliable, and cost-efficient engineering and construction services to distribution utilities. Duke Energy, its first customer, remains an important customer in 2018.

Premier began construction and maintenance work for a local gas distribution company (LDC) in Southeastern Indiana in August 2004. In January 2009, the company created Superior Utility Operations, a division formed within our overall corporate structure to focus on those operations.

Opened an office in Louisville KY in March 2013 to complete a 5-year riser replacement project, the third such major project for a large utility in its history. Successfully completed in 2017.

Opened an office in Dayton, OH area in September 2014 to focus on providing construction and maintenance services to Vectren Corporation. Relocated company headquarters to Lawrenceburg, IN in June 2017.

**Leadership:** John Stenger, President

**Number of employees:** 129 (2017 average)
